

HOLLY HIRANANDANI

MY DATASET:

My datasets were sourced from the WHO Coronavirus dashboard:

<https://covid19.who.int/data>

I will primarily be working with two datasets:

1. Latest reported counts of cases and deaths

Download link: <https://covid19.who.int/WHO-COVID-19-global-table-data.csv>

2. Vaccination data

Download links: <https://covid19.who.int/who-data/vaccination-data.csv>

Data Sourced on June 16th 2022

MY BUSINESS ISSUE:

I would like to take a closer look at the current COVID-19 data and explore whether or not there are any patterns or correlations between vaccination rates, new case occurrences and death rates throughout various countries and regions.
